

Small Boundary Microphone

IL-PL21

This boundary microphone is ideal for use with our Portable Loop and the "Home Loop" driver to provide an additional sound source to the built in microphones.

It provides an omni-directional response, meaning it is useful for discussions involving numerous people when using the portable loop.

The microphone is also useful in conjunction with the "Home Loop" to provide sound external from the television, such as a telephone or doorbell.

The microphone is intended for use on a flat surface, such as a counter or a table.

Physical Data (boxed)

Dimensions	Height - 40mm (1.57") Width - 40mm (1.57") Depth - 20mm (0.78")
Weight	0.2kg (0.44lb)

Technical Data

Frequency Response	20-16Khz
Sensitivity	-65dB+/-3dB (0dB=1V/u)
Directional Response	Omni-directional
Impedance	Low

Applications

For use in any situation where communication takes place at a counter, booth or desk, such as in:

- Banks
- Post offices
- Supermarkets
- Theatres
- Information centres
- Airports
